

BORIS PÖHLAND

Web Developer

@ me@boris.app 📍 Ulcinj, Montenegro in linkedin.com/in/borispoemland 📄 github.com/montescout

EXPERIENCE

Web Developer

WEB3DEV DOO

📅 Sep 2022 – Present 📍 Ulcinj, Montenegro

- After moving to Montenegro, I opened my own web development company
- Client work: Created Next.js websites from scratch and/or according to Figma Designs
- Own projects: Bootstrapped Montescout [🔗](#), Next Dev Agency [🔗](#), Indie Hub [🔗](#) and Stackguru [🔗](#)

Web Developer

XOXNO

📅 Apr 2022 – Sep 2022 📍 Wertheim, Germany

- Migrated XOXNO's React codebase to Next.js
- Developed novel features where people could interact with their NFT-marketplace on-chain
- As a developer team of three we bootstrapped XOXNO to be the biggest NFT marketplace on MultiversX, with a weekly volume of more than 50k USD

Frontend Developer

MULTA MEDIO

📅 Apr 2020 – Oct 2020 📍 Würzburg, Germany

- Evaluated the Usability of their internal E-Learning Software, then implemented the changes technically
- After the 6-week Usability internship, helped migrating LOTTO Baden-Württemberg's to Microservice Architecture
- In another Working Student job from Mar 2021 - Apr 2021, worked in a team of three to migrate LOTTO Bayern's UI to a novel architecture as well

Web Developer

shopkonstrukt

📅 Nov 2021 – Mar 2022 📍 Würzburg, Germany

- Designed a christmas discount landing page in Wordpress
- Worked with Plentymarkets to develop a cross-device cart persistence system
- Developed a simple Next.js earnings calculator that was embedded on the main site

EDUCATION

B.S. Human-Computer-Interaction

Julius-Maximilians-Universität Würzburg

📅 2017 – 2021

SKILLS

Next.js, Tailwind, Typescript
PostgreSQL, REST, AWS
SEO

PROJECTS

Montescout [🔗](#)

- Real Estate platform allowing people to list their property for free
- Indexing based on the zip code allows to filter by town, municipality and more

Next Dev Agency [🔗](#)

- Specialised funnel targeting Next.js teams that want their codebase fixed, refactored or upgraded

Indie Hub [🔗](#)

- Productivity Hub for website makers and marketers
- Currently featuring a Google Analytics integration allowing you to manage your GA4 properties easily from your phone or computer

Stackguru [🔗](#)

- Free platform to learn web development

ZION Multiverse [🔗](#)

- Decentralised app of my client ZION
- Allows people to connect their wallet, mint NFTs, stake NFTs, buy prices and view their inventory

XOXNO [🔗](#)

- Decentralised app of my client XOXNO
- Allows people to connect their wallet, buy and sell NFTs, and do a lot more (Create NFT collection, P2P, Staking, Analytics, Launchpad)

My Montescout [🔗](#)

- Lead Funnel allowing people to find cheap and reliable local services in Montenegro
