# BORIS PÖHLAND

## Web Developer

- Neubrandenburg, Germany
- +49 160 127 50 50
- borispoehland.com
- /borispoehland
- me@borispoehland.com
- /in/borispoehland

## EXPERIENCE

### Advanced Fullstack Engineer
**audibene**

- Feb 2026 – Now
- Berlin

- Rewriting the appointment UI for seamless scheduling and rescheduling of hearing aid evaluations
- Technology: React, Node.js, Claude Code, MUI, Styled components, React Hook Form, React Query, React i18next, Auth0, Snowflake, Domo
- DX Focus: High quality standards and strong automated test coverage

### Web Developer
**XOXNO**

- Apr 2022 – Dec 2025
- Remote

- Innovative DeFi Platform & NFT Marketplace. Showcase ⬀
- Technology: React, Next.js, Tailwind, Radix UI, MultiversX, Structured Data, Next Intl (i18n), React Email, Chart.js, React Hook Form, SWR, Virtualization, REST APIs, Node.js, Nest.js
- Clean code: As the solo web developer behind XOXNO, I optimized writing scalable, composable and clean React components with the rendering benefits of Next.js
- Maths Focus: As a secure DeFi Protocol with more than 5.64M USD TVL, I am used to writing logic heavy flows. So apart from front-end development, I also like solving hard problems

### Usability Internship & Web Developer
**MULTA MEDIO**

- Apr 2020 – Oct 2020
- Würzburg, Germany

- Evaluated the Usability of their internal E-Learning Software, then implemented the changes technically
- After the 6-week Usability internship, helped migrating LOTTO Baden-Württemberg to Microservice Architecture
- From Mar 2021 - Apr 2021, worked as a student worker to migrate LOTTO Bayern to a novel architecture as well

### Web Developer
**shopkonstrukt**

- Nov 2021 – Mar 2022
- Würzburg, Germany

- Worked with Plentymarkets to develop a cross-device cart persistence system
- Designed a christmas discount landing page in Wordpress and an embedded earnings calculator widget in Next.js

## EDUCATION

### B.Sc. Human-Computer Systems
**Julius-Maximilians-Universität**

- 2017 – 2021
- Würzburg, Germany

- Focus on measuring and evaluating Usability. Grade: 1.5
- Thesis: Entwurf, Entwicklung und Evaluation eines NutzerInnen-Onboarding-Systems für die Texterkennungssoftware OCR4all. Grade: 1.0

### Abitur
**Dietrich-Bonhoeffer-Gymnasium**

- 2013 – 2017
- Wertheim, Germany

- Grade: 1.6

## PROJECTS

**XOXNO** ⬀
- DeFi Platform ⬀ and NFT Marketplace ⬀ on the MultiversX blockchain

**ZonTix** ⬀
- Event & Ticketing Platform by XOXNO, specialised for the Web2 Market

**XOXNO SDK** ⬀
- Client to query all XOXNO REST endpoints

**Seediboard** ⬀
- Leaderboard archive for Seedify campaigns
